**LI-5 Homework**

You are going to spend two years on a small tropical island. There are no people, houses, buildings, roads, etc. on the island. You will be living there alone. You cannot leave the island. The island is covered by trees and jungle, and there don't appear to be any large or dangerous animals on it. There are a few fruit trees, and a well which supplies plenty of fresh water. When you come to the island, you will get all the normal clothes you will need and you will be given enough packaged food for two months. You have to make a list of EIGHT other items to take with you to help you survive. You can take more than one of any item. For example: some books, some knives, etc. All the items must be able to fit in a small boat. In the next class, you will have to talk about what items you have chosen, why you need them, and what you will use them for.
